

How do I interpret the VA MICU schedule?

There are 4 types of days, which go in the following order:

- Long call – stay overnight
- Post call – leave after AM rounds (no later than 11AM)
- Short call – leave after PM rounds (around 4PM)
- Cross cover – when all work is done (no later than after PM rounds)

You can see when you are long call / short call each day of the month.

To see when you are working on the weekend:

- If you are long call Thursday, you will be post-call Friday and off Saturday & Sunday.
- If you are long call Friday, you will be post-call Saturday and off on Sunday.
- If you are long call Saturday, you will post-call on Sunday.
